WORK SURFACE - OPTIONS

LAMINATE WITH SAFEGUARD™ Choose from a broad range of colors, textures and patterns. We supply laminates from all the major manufacturers. The high pressure laminate is permanently bonded to an industrial grade 45 lb. density particle board core for strength. The work surface is finished with our durable Safeguard Edge.

COMFORT EDGE™ Our urethane Comfort Edge work surface offers the ultimate in flexibility and durability. The black urethane edge is molded to an industrial grade 45 lb. density particle board and is available in a wide variety of colors. The Comfort Edge work surface features a smooth, contoured profile to improve operator comfort and maximize productivity.

ENDURANCE EGDE™ Through a proprietary process, we insert a continuous protective bumper material in the front edge of the work surface. This protective bumper significantly increases the durability of the work surface, which is often subject to heavy physical stress in 24/7 control room environments.

CORIAN® work surfaces are durable and feature an attractive, seamless appearance. The solid colors penetrate through the entire thickness of the material so blemishes are easily repaired. The smooth, nonporous finish is hygienic and easy to clean, while being resistant to liquids and heat.
