WINSTED RELEASES WELS 4 DESIGN TOOL

MINNEAPOLIS, September 5, 2013 — Winsted Corporation (www.winsted.com) is pleased to announce the release of Winsted Equipment Layout Software (WELS) version 4. With a completely redesigned user interface and faster graphics engine, WELS 4 makes creating console designs and control room layouts using Winsted products faster and easier than ever before. WELS 4 is available for immediate download at www.winsted.com/WELS.

WELS 4 is a standalone program that provides full 3D design capabilities, comprehensive parts lists, automatic dimensioning, the ability to create specification sheets, and can export AutoCAD DWG files for 2D and 3D application.

Winsted's new EnVision command console product line is available for use in WELS 4. Work surface and side panel texture options have also been expanded in this version of the popular design software. Users can also add new images to monitor screens to further enhance designs.

WELS 4 is a FREE console design program that can be used out of the box – no training is required and there's no need to purchase additional CAD programs or tools.

Winsted catalogs are available in print or PDF format by calling 1-800-447-2257 or emailing info@winsted.com. Log on to www.winsted.com/quote for a free online technical furniture quote. Winsted's equipment layout software (WELS) is available for free at: www.winsted.com/WELS. For more information on Winsted products, visit www.winsted.com.
