WINSTED INTRODUCES SLAT-WALL CONSOLES

MINNEAPOLIS, June 15th, 2011 —New Slat-Wall consoles from Winsted Corporation feature a 15-inch tall slat wall for mounting monitors and other accessories. Built on the same foundation as the company's award-winning Sight-Line console, Slat-Wall consoles are modular, configurable and expandable to meet the changing needs of the control room.

The Slat-Wall console takes flexibility to a new level. With several monitor mounts to choose from, there are virtually an infinite number of ways to configure and adjust monitors on the slat-wall. Slat-Wall panels also add an element of privacy to each operator's personal workspace.

The slat-wall is constructed of high quality extruded 6105-T5 aluminum with a black anodized finish that is attractive and smooth to the touch.

Winsted catalogs are available in print or PDF format by calling 1-800-447-2257 or e-mailing info@winsted.com. Log on to www.winsted.com/quote for a free online technical furniture quote.
