

SCOUT CHAIR GUIDE

Mission Critical. Mission Comfortable.

At Winsted we understand that Mission Critical Control Rooms are high-stress environments, and those standing watch work long shifts to support the mission. That's why the right chair is a critical part of the operator's environment. Chairs built and warranted for 24/7 intensive use with heavy-duty steel base construction and all the key ergonomic adjustments.

The Scout is an entry-level operator chair and a good choice for the budget minded requiring something more suitable than a standard office chair. But don't let it fool you, it still has a full complement of ergonomic adjustments.
