

STRATA MONITOR MOUNTS

Designed for Mission-Critical Operations

24/7 Reliability in High-Intensity Control Room Environments

Strata mounts redefine the control room experience with precision engineering, refined aesthetics, and exceptional adaptability.

Built on a **modular, scalable platform**, they integrate seamlessly into single or multi-display configurations, supporting the most demanding operational environments.

ISO-11064 compliant and advanced adjustability, ergonomic design, and discreet cable management, Strata mounts deliver a streamlined, reliable workspace; engineered for 24/7 mission-critical performance.

FEATURES & BENEFITS

- Supports virtually all monitor types and sizes—engineered to be the right solution, not just compatible.
- Versa-Trak's post mounted design offers stronger, more balanced load support over slat wall systems.
- Adaptive design allows maximum flexibility with interchangeable parts for endless configurations.
- Simplify installations with Quick-Connect VESA adapters and laser-etched post height markers ensuring quick, consistent set-ups
- Toolless Operation; Quick-Connect VESA heads easily rotate displays from landscape to portrait, while Versa-Trak horizontal adjustments and vertical monitor post adjustments can be done without tools.
- Easily upgrade arms or posts without replacing the full system; Strata stackable posts can expand the range to support multi-row displays and arrays.
- Mix and match components to support varied monitor sizes, configurations, and weights on a single post.
- Ten-Year Warranty
