SOLUTIONS CATALOG

WINSTED AT YOUR SERVICE

FLAT-PACKED

Winsted ships most products flat-packed, which can be delivered to any site. You save money when shipping flat-packed from the factory and assembling on-site using easy-to-follow instructions.

PRE-ASSEMBLED

All Winsted consoles can be delivered pre-assembled. Winsted factory technicians do most of the construction prior to shipping, leaving only minor adjustments by you to complete the installation on-site.

ON-SITE ASSEMBLY

Winsted also offers a factory-to-floor turnkey assembly solution. Our consoles can be completely built on-site by Winsted factory technicians.

AT YOUR SERVICE • FROM CONCEPT TO REALITY

FREE ON-SITE CONSULTATION

We understand that every installation is unique and we can gather valuable information by visiting the actual site. We are committed to getting it right the first time and, at no charge, we will travel to your location to take measurements, do a site survey and consult with the appropriate parties.

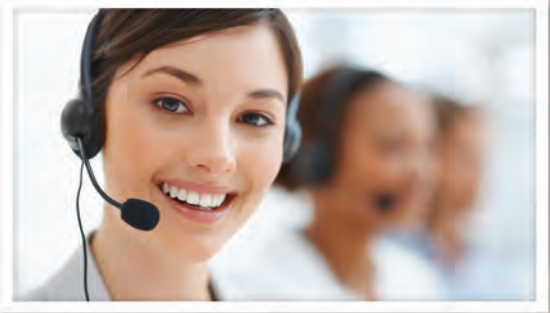

FREE DESIGN SERVICE

We go to great lengths to understand your needs and the objectives of the project. Our experienced design department will design your console to be ergonomically correct and to support the associated electronics and equipment. Once the design is final we will provide you with a complete design and specification package ready for presentation.

FREE PROJECT SUPPORT

Winsted is a true project partner and we pride ourselves on going above and beyond. What can we do to help you win the job? We can provide Building Information Modeling (BIM) files for Revit®, full CAD drawings in multiple views, photo-quality color renderings of the console design and even animated “walk-through” videos of the proposed installation.

WORLD CLASS CUSTOMER SERVICE

Our goal is to provide the best customer service in the industry; it is what our success is built on. Your satisfaction is guaranteed. Our experienced and knowledgeable customer service staff is ready to respond before, during and after the sale. We also stand by our products, which is why most of them carry a lifetime warranty.

SIGHT-LINE • PRESTIGE SERIES

SIGHT-LINE™ CONSOLES

Sight-Line consoles feature our integrated Versa-Trak monitor mounting system, which offers the ultimate in adjustability. The Versa-Trak system allows users to optimize and easily modify sight lines and viewing angles based on personal needs.

If you are looking for unparalleled beauty and function designed specifically for your needs, you have found the solution. Whether you need a single workstation or a complete control room, Sight-Line consoles are perfect for all installations.

INSIGHT • PRESTIGE SERIES

INSIGHT™ CONSOLES

Our Compact Console features a high-density profile, designed for a high performance world. Insight's overall depth of 32" saves valuable space and maximizes control room functionality. Our engineers reduced the overall depth of the chase and work surface on the popular Sight-Line console to create a compact console solution.

The result is an efficient footprint that meets ergonomic standards and provides ample desktop workspace.

MODULAR DESIGN OPTIONS

CHASE OPTIONS: Single, Double & Triple Bay

FRAME HEIGHT: 24-3/8"

FRAME DEPTH: 14-3/16"

CORNERS: Concave & Convex

Unlimited configuration possibilities.

ASCEND • PRESTIGE SERIES

ASCEND™ CONSOLES

Keep your operators happy, healthy and productive with our Ascend sit/stand console. Changing positions throughout the day can help minimize physical stress and fatigue. Ascend provides a wide range of movement and easily allows operators to alternate between sitting and standing at the push of a button.

This completely redesigned sit/stand console includes electric-lift legs, which enable operators to quickly and easily adjust the work surface.

MODULAR DESIGN OPTIONS

IMPULSE • DUAL SIT/STAND

IMPULSE™ CONSOLES

Sit/stand consoles are a great choice for an ergonomic upgrade. Impulse Consoles take ergonomics and operator comfort to a whole new level by offering two independently adjustable work surfaces.

Studies have shown that too much sitting can be detrimental to your health. Movement throughout the day is important to maintaining good health. Alternating between sitting and standing is a healthy activity that increases energy and reduces fatigue. Sit/stand consoles also provide adjustability to meet the needs of each individual operator.

MODULAR DESIGN OPTIONS

WIDTH OPTIONS: 59", 75-5/8", 83", 90-1/2", 96-7/16"

WORK SURFACE HEIGHT: 30" - 46"

E-SOC • CONTROL STATION

E-SOC™ CONTROL STATION

Winsted's innovative E-SOC Control Station is the perfect balance between our award winning Prestige Console and our Multimedia Workstations. E-SOC features the Versa-Trak monitor mounting system for ergonomic comfort and adjustability. Lift-off access panels, integrated cable management and a hinged corner make E-SOC a flexible and feature rich solution suitable for any application.

E-SOC offers the flexibility, the feature set and the price point to suit any control room installation.

MODULAR DESIGN OPTIONS

WIDTH OPTIONS: 48", 60", 72"

CONSOLE HEIGHT: 28-7/8"

CONSOLE DEPTH: 34-5/8"

CUSTOM WOOD

CUSTOM WOOD

We specialize in consoles but we offer so much more! In 2011 Winsted launched a new Custom Wood Division to design and manufacture wood products for today's demanding control room environments.

Moving beyond the control room, we also provide custom technical furniture solutions for other technology-heavy spaces. Our 50-plus years of control room experience puts us in a unique position to manage the technical complexities and the human factors necessary to create a world class environment.

CUSTOM DIVISION

CUSTOM DIVISION

Winsted Custom Division starts with your criteria, and we develop a solution that exactly fits your needs instead of trying to meet your requirements with pre-configured modules. Your solution is designed for your application to exactly match your requirements, space and functionality. We combine the disciplines of industrial design, human factors and interior design to create workspaces that are both efficient and beautiful. We work with you to develop custom console solutions for every possible control room application, regardless of the scale or complexity.

MISSION CRITICAL

Winsted's custom consoles are installed in nuclear power plants, military command centers, security control rooms and mission critical communication centers around the world. From the layout of the room, to determining the precise placement of every keyboard, monitor and telephone, not a single detail is left to chance.
